EDUCATION

BSc Computer Science, Example University, Toronto, ON - 2027
Relevant coursework: Data Structures, Databases, Software Engineering, Operating Systems

EXPERIENCE

Software Engineering Intern, Example Bank, Toronto, ON - May to Aug 2026
- Built an internal Python tool that scheduled nightly database backups, used by three teams.
- Wrote SQL queries and PostgreSQL reports that cut a weekly manual report from two hours to twenty minutes.
- Fixed bugs in a React and TypeScript dashboard used by support staff to track open tickets.

Research Assistant, Example University - Oct 2025 to Apr 2026
- Cleaned and analysed survey data with Python and presented the findings to the lab group.
- Wrote documentation for the lab’s data pipeline so new students could run it without help.

PROJECTS

Task Tracker - React, TypeScript, PostgreSQL
- Built a full-stack task tracker with user login, task lists, and due-date reminders.
- Added unit tests with Jest and deployed a demo for the course showcase.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, Java
Frameworks and tools: React, Node.js, PostgreSQL, Git, Jest
